EXECUTIVE SUMMARY

Self-motivated and enthusiastic engineering student with a genuine interest in technology and innovation. Adapts quickly to new tools and environments, enjoys problem-solving, and collaborates effectively in team-oriented academic and project work. Eager to learn emerging technologies, apply technical skills in real-world applications, and grow continuously through practical experience.

TECHNICAL SKILLS

Languages: Java
Frameworks: Spring Boot, ReactJS, NodeJS
Databases: MySQL
Dev Tools: Visual Studio Code, Git

INTERNSHIP

Java Developer Intern Feb 2026 – Apr 2026
Infosys Springboard Virtual
Developing a full-stack Library Management System using Java, Spring Boot, React, and MySQL to manage books, users, and issue/return operations. Implemented RESTful APIs for book catalog, member management, and transaction tracking, ensuring efficient backend–frontend communication. Designed a responsive React interface integrated with a secure and scalable backend architecture.
Technologies: Java, Spring Boot, MySQL, React Source Code

EDUCATION

VELAMMAL MATRIC HIGHER SECONDARY SCHOOL Ponneri, Tamil Nadu
Higher Secondary – Percentage: 96.17% 2022 – 2023

R.M.K. ENGINEERING COLLEGE Kavaraipettai, Tamil Nadu
Bachelor of Engineering (CSE) - CGPA(8.37/10) 2023 – 2027

PROJECTS

Inventory Management System *ReactJS, NodeJS, Tailwind CSS, MongoDB* *Source Code*
Developed a full-stack inventory management application to efficiently handle products, sales, and stock tracking. Designed a responsive and interactive user interface while integrating backend APIs to ensure smooth data flow and real-time inventory updates, enabling effective management of business operations.

FarmXchange *Html, CSS, NodeJS, MongoDB* *Source Code*
Built a digital marketplace that improves transparency and fair pricing by directly connecting farmers with consumers and retailers. Designed an end-to-end system to manage product listings, orders, and inventory, providing a reliable, user-friendly platform that simplifies agricultural trade and reduces dependency on intermediaries.

CivicConnect *ReactJS, NodeJS, Tailwind, MongoDB* *Source Code*
Created CivicConnect to simplify how citizens report public infrastructure and service issues. Designed a centralized system for complaint logging, media attachments, and progress tracking, reducing manual follow-ups and enabling faster, transparent interaction between the public and local bodies.

CERTIFICATIONS

Oracle Certified Professional: Java SE 17 Developer - *Certificate* Mar 2026
TechA Java Full Stack Developer Certification (Proctored) - Infosys Springboard - *Certificate* Jun 2026
Front End Web Developer Certication (Proctored) - Infosys Springboard - *Certificate* Nov 2025

ACHIEVEMENT

- **Second Prize – Hack-N-Droid, VIT Chennai** 2026
  Won **2nd Prize** for developing an AI-powered Medical Chatbot.
- **Semifinalist – ET AI Hackathon** 2026
  Reached the **Semifinals** with **CivicConnect**, an AI-based public civic issue reporting system.
