YELUGURI SAI JATHIN

+91-7993830106 | ysaijathin@gmail.com | linkedin.com/in/yeluguri-sai-jathin | github.com/ySaiJathin

Education

RMK Engineering College – B.E. Computer Science & Engineering 2023 – 2027
Narayana Junior College – Intermediate (MPC) 2021 – 2023
Narayana Olympiad School – Secondary School Certificate (10th) 2021

Projects

TelecomX AI *Ongoing*

AI-Powered Enterprise Customer Intelligence Platform

Python | Pandas | NumPy | Scikit-learn | Streamlit | Plotly | Matplotlib | Seaborn | Joblib | Git | GitHub

- Developed an **AI-Driven Customer Intelligence Platform** to predict **Customer Churn**, generate **Churn Risk Scores**, and recommend **Personalized Retention Strategies**.
- Built and evaluated **Machine Learning Models** using **Scikit-learn** for **Customer Segmentation**, **Behavioral Analysis**, and **Predictive Analytics**, presenting insights through an interactive **Business Intelligence Dashboard**.

AgriSense AI

AI-Powered Precision Agriculture Platform

Python | Computer Vision | Image Classification | Machine Learning

- Developed a prototype **AI-Powered Agriculture Platform** providing intelligent **Crop Recommendations**, **Disease Detection**, and **Pesticide Guidance**.
- Designed modules for **Crop Lifecycle Management**, **Regional Vendor Price Discovery**, and **Farmer Decision Support** to improve agricultural decision-making.

InsightIQ AI

AI-Powered Enterprise Conversational Analytics Platform

Python | SQL | Snowflake Cortex | Cortex Analyst | Cortex Search | Streamlit | RAG

- Developed an **AI-Powered Business Analytics Assistant** using **Snowflake Cortex Analyst** to convert **Natural Language Queries** into SQL.
- Integrated **Cortex Search**, **Retrieval-Augmented Generation (RAG)**, and **Streamlit** to deliver **Conversational Business Analytics** and interactive enterprise data exploration.

Certifications

Oracle Cloud Infrastructure Foundations (OCI)
Building Generative AI Apps to Talk Your Data (Snowflake) – GeeksforGeeks
Intro to Snowflake for Developers (Snowflake) – GeeksforGeeks
AWS Solutions Architecture Job Simulation

Technical Skills

Languages: Python | SQL
AI/ML: Machine Learning | Computer Vision | RAG | Gen AI
Cloud: Oracle Cloud Infrastructure | Snowflake Cortex
Tools: Git | GitHub | VS Code | Jupyter Notebook
Languages Known: English | Telugu | Hindi | Japanese (Beginner)

Leadership

- **Class Representative**, RMK Engineering College (2023–2025)
- **SIH Team Lead** (2024)
- **TEDx Organizer** (2023–Present)
- **Cultural Club Vice President** (2021)
